No members of the public addressed the Board at this time.

Board minutes for consideration of approval

On a motion by Hamed Tewfik, M.D., seconded by Diane Clark, all members of the Board except for Charles Wadle, D.O., who abstained from voting, voted to approved the following minutes as presented: April 2-3, 2015, Board meeting (open & closed)

Chair's report

Dr. Tewfik did not provide a report.

Executive Director's report

Mark Bowden provided the following updates:

- The Board is will seek authorization from the Iowa Department of Management to hire an investigator for the enforcement division and a case manager for the Iowa Physician Health Program.
- Staff is drafting the 2016 fiscal year budget, which must be submitted to the Iowa Department of Public Health by mid-June so that the agency's budget can be incorporated into the department's budget. The Board will review the agency's budget at the July meeting.
- Steps are being taken to improve the Iowa Board of Medicine's website. A mobile application has been discussed over the last year to help Iowa consumer's access the "find a physician" function on the website. Central features of the website include filing complaints and the find a physician function. As this function is part of the database, there will be some additional costs to allow these features to be presented in a mobile format. Board staff will brief the Dental and Nursing boards about this project because these boards will have similar needs for the mobile-friendly formatting. This is a \$50,000 project and the cost could be shared equally amongst the three boards.
- An upgrade is coming on the new licensure database. The Board is on AMANDA 5 and this is being moved to AMANDA 6. This update will happen by July 1. To accommodate the upgrade, the website will be shut down for 24 hours and license applications will not be received during the shutdown.

Administrative rules

- A new website, www.rules.iowa.gov, has been established by the Office of the Chief Information Officer to help the public monitor rulemaking by state agencies, including the Board of Medicine. All the rulemaking that is occurring within state government is posted on the new site, which was launched in May. The public can comment on rules, and these comments will be routed to the appropriate agency.
- **ARC 1983C (standards of practice for telemedicine)** will become effective on June 3. The new rule received approval at its final review by the Administrative Rules Review Committee on May 8.
- **ARC 1909C (on-site supervision of physician assistants)** was adopted by the Board of Physician Assistants, but the Administrative Rules Review Committee delayed implementation of the rule until the Legislature has had a chance to look at the issues that are involved. The PA board wants to eliminate on-site visits by physicians who supervise physician assistants in remote clinics. The Board of Medicine had concerns with the rule

and met with the PA board and offered other options to ensure appropriate supervision of physician assistants. The PA board adopted the rule without using any options offered by the Board of Medicine. Corresponding with this legislative delay of ARC 1909C, the chair of the ARRC offered an amendment to legislation to address the Board of Medicine's desire to help write supervisory rules. This amendment is in **SF505**, an appropriations bill which has been assigned to a legislative conference committee.

- **Possible amendment to 641-Chapter 41.6** regarding the content of the mandatory reports sent to patients who undergo mammography screening. (**SF80**). This will be discussed during the July 9-10 Board meeting. Stakeholders involved in this amendment will be here during that meeting.

2015 legislation

- **SF276** -- Provides that an inactive license shall be deemed relinquished after 5 years. The bill also allows the Board to issue an administrative medical license. The bill has been signed into law by the Governor. Staff will begin drafting administrative rules to enact the law.
- **SF426** -- Allows physician's to have "candid" discussions with their patients to address significant adverse health care events. Kent Nebel, Director of Legal Affairs, shared an overview on what information would be accessible to the Board. Currently, if a hospital reviews care provided by a physician and performs a peer review, the Board generally has access to the investigative information and the complaint but once the hospital or clinic starts to perform a peer review/investigation the results of that peer review are not accessible by the Board.
- **SF457** -- Ombudsman access to closed session recording and minutes without a court order has been signed. (This is the same law that Assistant Attorney General Julie Bussanmas briefed the Board about during an open session of the Board's meeting on May 14.)
- **SF201** -- Strikes the statutory requirement that physician assistants must confer with their supervising physician prior to initiating an emergency commitment of a patient with mental health issues. This bill has been signed into law by the Governor.
- **SF273** -- The Interstate Medical Licensure Compact is one of the bills offered by the Board. The legislation has been introduced in 18 states and it has been passed and signed into law in six of these states. A total of seven states must join the compact for it to become operational. In the Midwest, the legislation has been approved in South Dakota and it is likely to be approved in Illinois and Minnesota. In Iowa, compact legislation made it through the Senate, 47-0, but it stalled in the House Human Resources Committee. Discussions continue with key legislators about getting this compact legislation as an amendment to another bill before the session ends. The compact creates an expedited licensure process for qualified physicians..

- **Electronic Death Registration System**

Melissa Bird, Bureau Chief, and Sam Nichols, Field Representative, of the Bureau of Health Statistics in the Iowa Department of Public Health, appeared before the Board at the Board's request to provide an update on the state's new Electronic Death Registration System, which

allows physicians to complete death certificates online. The new system rolled out in April 2014. The Board is being pressed by the Iowa Funeral Directors Association to make sure physicians are completing the death certificate forms within the mandatory 72-hour deadline. The Board continues to receive complaints from physicians about the difficulty to register for the new system and the system's overall performance. Ms. Bird and Ms. Nichols will review these concerns and report back to the Board at a future meeting.

Malpractice claims against state-employed physicians in Iowa

Russell Bardin, Chief Investigator, reviewed tort claims received concerning state-employed physicians at University of Iowa Hospitals and Clinics. If patients have malpractice claims against UIHC physicians they must file a claim with the state before filing a lawsuit in district court. When the tort claim is filed with the state, the doctor's name is not mentioned. For the tort claim process, the state decides if they are going to accept that tort claim or deny it, and in most cases it is denied. At that point the patient must go through the civil litigation system. In FY2014, 17 lawsuits were filed after claims were rejected. Those 17 lawsuits named 24 doctors in their petitions. Using the Board's triage system to evaluate lawsuits, Bardin provided these results: 21 of the doctors had their cases closed administratively, and three doctors are being investigated. All three of these cases involved the death of a patient. Of the 17 lawsuits that have been filed, 11 of them have trial dates in 2016 or 2017. The rest are in discovery process. Mr. Bardin will continue to complete this review each year.

Judicial review of Board cases and related cases

Assistant Attorney General Julie Bussanmas briefed the Board on one status of the judicial review of the Board's rule, IAC 653--13.10, which establishes the standards of practice for physicians who perform medical abortions. Supreme Court. The Board's brief was submitted in mid-January. Planned Parenthood's reply brief was due week of February 1. Oral arguments were held on March 11. The Supreme Court's opinion on this case will be issued by July 1.

Iowa Physician Health Program

Amy Van Maanen, special projects manager and acting coordinator of the Iowa Physician Health Program, reported the program has 70 active cases and 15 cases in the review process to determine if these licensees should be admitted to the program. She reported that Laura Van Cleve, D.O., Grinnell, a member of the Iowa Physician Health Committee (IPHC), has resigned because she is moving to Minnesota. The IPHC will make a recommendation for a new member, which must be approved by the Board. The IPHC has approved its 2016 meeting schedule:

Federation of State Medical Boards

Dr. Tewfik, Diane Cortese, Mark Bowden, Julie Bussanmas, Kent Nebel, and Natalie Sipes attended the Federation of State Medical Board's Annual Meeting in Fort Worth, Texas from April 23-25, 2015. There was discussion during the meeting regarding opioid diversion and abuse in the United States, telemedicine, the Interstate Medical Licensure Compact, the recent U.S. Supreme Court opinion in the North Carolina Board of Dental Examiners v. the Federal Trade Commission.

One of the resolutions approved by the Federation's House of Delegates requires the Federation to establish a work group to develop model language in Board actions and to coordinate with the American Board of Medical Specialties to better understand the types of actions and language that will affect Board certification. Another resolution adopted will establish a Federation study group to review state medical boards' use of social media to disseminate regulatory information.

Licensure Committee

Diane Clark reported that the committee granted 4 permanent licenses, left 3 applications open, granted 2 temporary licenses, and granted 1 resident license. Further, the full Board granted a waiver to an applicant for an Iowa medical license. The waiver concerns Iowa Administrative Code 653-9.3(1)b"3" which requires applicants who do not hold a valid certificate issued by Educational Commission for Foreign Medical School Graduates to have successfully passed a basic science examination administered by a United States or Canadian medical licensing authority or Special Purpose Examination; successfully completed three years of resident training in a program approved by the board; and have five years of active practice without restriction as a licensee of any United States or Canadian jurisdiction. The applicant met the exam and training requirements.

Reports and articles

The following articles were shared with the Board.

The public meeting concluded at 10:24 a.m., but the Board remained in open session.

The Board reviewed information concerning Amy D. Putney, who performed EEGs and QEEGs and provided neurofeedback to patients with ADD, ADHD, learning disorders, sleep disorders, migraines and other health and mental health conditions. On December 8, 2014, the Board sent Ms. Putney a Notice to Cease and Desist, advising her to cease providing such services in Iowa in the future. On February 19, 2015, the Board issued Ms. Putney an Amended Notice. The Board noted that while it recognizes that the use of EEGs, QEEGs and neurofeedback may be within the scope of other licensed health and mental health professions in Iowa, the Board's investigation revealed that she was not appropriately licensed or certified to provide such services in Iowa. Recently, the Board received information which indicates that as of April 17, 2015, Ms. Putney is licensed in Iowa as a mental health counselor. The Board concluded that the services provided by Ms. Putney may be within the scope of a licensed mental health counselor and the Board does not have authority to regulate or define the practice of mental health counseling. Therefore, the Board voted to **withdrawal** the Notice to Cease and Desist and Amended Notice issued on December 10, 2014, and February 19, 2015. The Board also directed that this case be referred to the Iowa Board of Behavioral Science to determine whether the services provided by Ms. Putney are within the scope of practice of an Iowa-licensed mental health counselor.

At 10:48 a.m., on a motion by Diane Clark, seconded by Ronald Cheney, D.O., all members present voted to meet in closed session, pursuant to Iowa Code Sections 21.5(1)(c), 21.5(1)(d) and 21.5(1)(f), to discuss strategy with counsel in matters that are presently in

litigation or where litigation is imminent, whether to initiate licensee disciplinary proceedings and discuss the decision to be rendered in a contested case. Julie Carmody, M.D., Ronald Cheney, D.O., Diane Clark, Diane Cortese, Mary Jo Romano, Allison Schoenfelder, M.D., Hamed Tewfik, M.D., Kyle Ulveling, M.D., and Charles Wadle, D.O., all voted aye in a roll call vote to approve the motion.

At 11:44 p.m., while still in closed session, all members present voted in favor of a motion by Allison Schoenfelder, M.D., seconded by Julie Carmody, M.D., to meet in an open session. In open session, the Board took the following actions:

The Board discussed the Application for Re-Hearing and Request for Oral Argument submitted by Winthrop S. Risk, II, M.D., in which he requests that the Termination Order be modified and changed to delete the prohibitions preventing him from treating patients for chronic pain or administering or dispensing controlled substances to patients; that any limitation on the use of specific medications, such as Vimpat, Lyrica and Potiga, be removed. The Board concluded that Dr. Risk's request remedy is not available at this time because it should have been filed twenty (20) days after the Board's final decision, not five years later. The Board voted to **deny** Dr. Risk's request. Hamed H. Tewfik, M.D., recused.

On a motion by Diane Cortese, seconded by Allison Schoenfelder, M.D., all Board members present voted to **leave open** file 02-2015-052. Kyle Ulveling, M.D., recused.

On a motion by Diane Cortese, seconded by Allison Schoenfelder, M.D., all Board members present voted to **accept** the combined Statement of Charges and Settlement Agreement for Eric F. Opheim, D.O., files 03-2012-243 and 03-2013-367.
